

ACHIEVE OPTIMAL WELLNESS

COMMITMENT

Staying committed to your wellness by allowing the time necessary for the system to take effect, is an important part of your journey. We recommend scheduling monthly assessments with your practitioner.

TIME

While many experience almost immediate benefits, it can take time to clear Body-Field distortions that have built up over time, to reactivate your body's innate self-healing processes.

TOTAL WELLNESS

While following your recommended NES Infoceutical protocol, it is equally essential to assess your diet and life circumstances.

- Optimize nutrition
- Include proper exercise
- Lower stress levels
- Reduce toxin exposure

Since Peter Fraser's revolutionary discovery and mapping of the Human Body-Field, NES Health has led the field of bioenergetics, supporting individuals worldwide by addressing issues relating to their health and wellbeing.

The Body-Field represents the general state of your overall physical and emotional condition. Distortions in this field can cause disharmony in your life. Corrections of these distortions support and encourage a more balanced, enjoyable, and rich life experience.
