## Welcome to the NES BioEnergetiX WellNES System

Energy and information control biology.

Every functional system in the universe requires Energy and Information ...including us. What would your smartphone do without energy or information (data & apps)? Nothing. That's right. What happens when information on your smartphone becomes distorted/corrupted? Its functions will be impaired, right?!

Well, the exact same principle applies to our body!

Over 30 years of research by NES Health proves that there is a regulating field of energy and information at the subcellular (quantum) level, we call the human body-field, which serves as a master control system for all physiological function. Any distortions or blockages in the body-field correlate to the physical symptoms we experience and are the root cause of our health issues.

The harmonious interaction of the components that comprise the NES BioEnergetiX WellNES System correct these distortions, so the body-field & body can more easily and naturally return to optimum function. Watch the video at <https://vimeo.com/junevahealth/bioenergetix-intro>.

It is one simple, powerful system for creating total wellness:

### 1. Assess with NES BioEnergetiX App

A revealing whole-being scan to assess your body and body-field and identify the distortions in energy and information flow.

NES BioEnergetiX Advanced Analysis Software is a comprehensive health assessment tool that probes the human body-field to identify the bio-energetic and bio-informational distortions that may underlie physical and emotional issues that correlate to your health issues.

By simply placing your hand on a scanning device, the software measures hundreds of wellness points in just seconds with remarkable accuracy. It advises your practitioner on the correct NES miHealth functions and NES Infoceuticals to restore your body-field's energy flows and information to activate the body's self-healing abilities.

### 2. Unblock with NES miHealth

Reduce stress and re-train parts of the body and mind to healthier patterns to unblock the body's energy, release trigger points and correct energy flow.

NES miHealth is a compact, non-invasive handheld PEMF (pulsed electro-magnetic frequency) device, which releases energy blockages, stimulates trigger points and brings your body's oscillations back to normal allowing the important information delivered by the NES Infoceuticals to flow properly to where it is needed.

The miHealth can be used directly on your skin or in off-body mode. With a variety of healing options available via the NES miHealth, you and your practitioner can work in collaboration so you experience maximum benefits.

### 3. Correct with NES Infoceuticals

Micro-mineral liquid drops to correct distortions in the body's information based on the exact information that's right for you.

NES Infoceuticals are liquid energetic remedies that have been 'imprinted' with bio-information to directly correct distortions in your body-field and restore your body's inherent self-healing capabilities. They deliver the precise information your body needs to reclaim optimal functioning and health.

NES Infoceuticals are safe, effective and easy to use by simply dispensing the recommended number of drops into a glass of water. You can use them with other liquids and with foods or nutritional supplements. You can also take them while using other health programs or products.
